Notice Concerning Transferability of Credits and Degrees Earned at Redstone

Redstone credits will not transfer to other schools and a degree from Redstone will not be honored for admission to an advanced degree program, except in limited circumstances such as where a written articulation agreement exists between Redstone and another school. If the credits or degree, diploma or certificate that Student earns at this institution are not accepted at the institution to which Student seeks to transfer, Student may be required to repeat some or all of his/her coursework at that institution. For this reason, Student should make certain that his/her attendance at this institution will meet his/her educational goals. This may include contacting an institution to which Student may seek to transfer after attending Redstone College to determine if Student’s credits or degree will transfer. It is Student’s responsibility to confirm whether an institution will accept credits from Redstone.

Questions or concerns in the State of Colorado may be brought to the attention of:

Director, Colorado Department of Higher Education
Division of Private Occupational Schools
1560 Broadway, Suite 1600
Denver, CO 80202
Telephone: 303-866-2723

Complaints or claims may be filed in writing with the Board within two (2) years after the student discontinues his/her training at the school, or at any time prior to the commencement of training.
EDUCATION ALLIANCE
Education alliance is a program offered to organizations that partner with Redstone College to communicate the advantages of a Redstone education to the population of their organization. Benefits to alliance members include preferred interviewing of graduates on-site, dedicated contact throughout the admissions process, and a specialized tuition rate. For more information, contact the admissions office.

All students who apply under education alliance will be required to show association upon application. In addition, students may be required to show association with the education alliance partner while attending the college. When proof is required, it will generally be at the beginning of an academic year when reapplying for financial aid. Continued approval will be granted if the student transfers to a different organization that is an education alliance partner along with the proper required proof of association.

For additional information, please contact the campus business office or an admissions representative.

Student Resource Fee
The student resource fee supports the program-related software that is available in the computer labs at each campus and for technology infrastructure available to students (including student email, wifi on campus, electronic library resources, and access to the printers on campus). The fee also helps to fund activities for students such as school events, job fairs, and special services.

Housing Scholarship
This scholarship will:

- Be equal to two months' rent
- Not exceed $1,100
- Be limited to new start students and limited to two students per class start. The students will be required to pay their own application/deposit fees
- Be based upon financial need (Pell-eligible)
- Not be able to be used in conjunction with any other Redstone scholarship (includes MAP, Imagine America, Redstone and AEA)
- All funds will be paid directly to the housing complex or landlord

ET134 Safety
5.0 CREDIT HOURS / 45 LECTURE HOURS / 10 LAB HOURS
This course trains the student in three areas of safety. First the OSHA 10-hour General Industry training program is taught. Second the ENSA safe work at height and rescue training program is completed and last is the First Aid/CPR/AED training. Students will complete broad first aid training and be certified by American Red Cross to properly deliver that first aid to an injured person. Students will receive a certificate for completion of each of these three training programs.

## Loan Cost Example

The total amount a student will pay for this financing will vary depending upon the number of months the student is in school and the repayment period after the student leaves school. The repayment period will depend on a number of factors, including the amount financed.

Students will begin making monthly payments on the first day of the second month after the beginning of the academic term for which financing is provided. There is no period during which payments can be deferred.
